- Simon Helscher, +43 660 451 69 60, [simon.helscher@gmail.com](mailto:simon.helscher@gmail.com)

## Band

Liquid Air is a four-piece Art Rock Band hailing from Schwechat, consisting of:

- Merlin Waldhör (Piano, Vocals)
- Sebastian Waldek (Guitar, Synth, Vocals)
- Simon Helscher (Bass, Vocals)
- Constantin Seyer (Drums, Vocals)

The travel party consists of 6 persons, including band, sound tech and photographer

## PA

For our Live-Show, we need a modern PA-System that is tailored to the event in question. The entirety of the show and soundcheck must be accompanied by a competent and relaxed system technician provided by the venue.

## FOH

We bring with us our own sound technician, mixing console (Allan & Heath SQ5), two Tio-Stageboxes and an In-Ear-Rack. A power-supply line must be provided, as well a CAT-line from FOH to stage.

## In-Ear-Monitoring

All 4 band members play using wireless in-ear-monitoring. The required headphones and transmitters are included in our rack, the mix is done by our sound tech. We are sending via C-bands (662 - 686 MHz) and A-bands (476 - 500 MHz).

## Backline

The following must be provided by the venue:

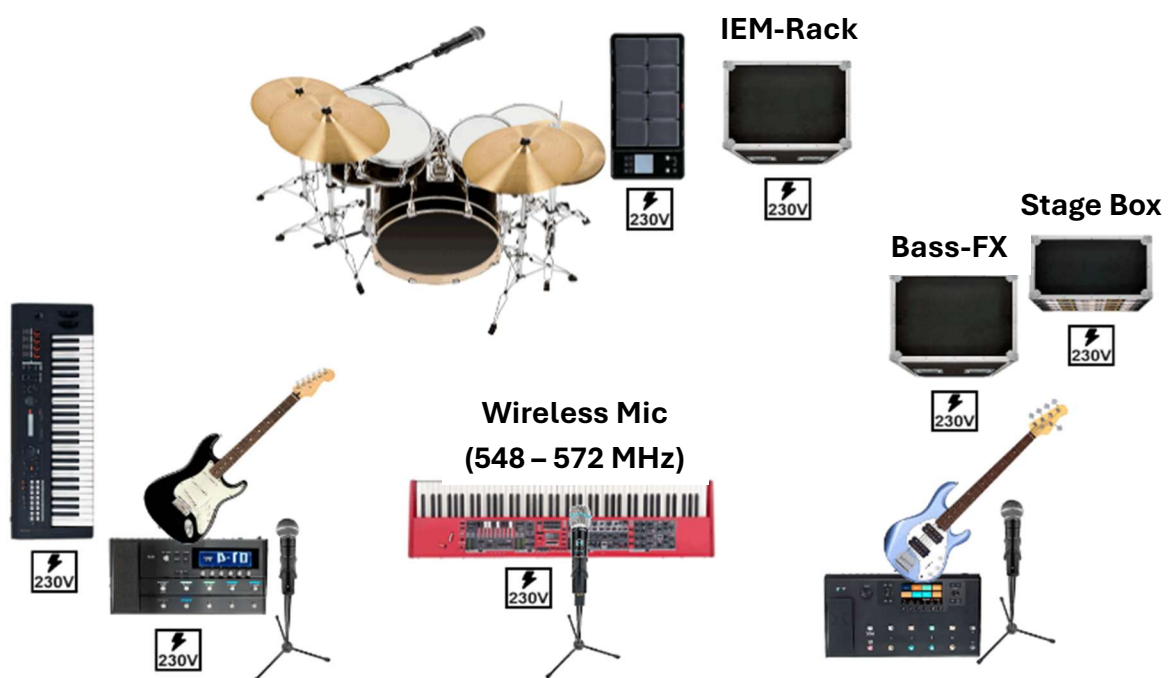

- A Drumset, consisting of at least 1 Kick Drum, 1 Rack Tom and 1 Floor Tom
- 3 mic stands
- Various cables

All mics and DI-Boxes, as well as the other instruments are brought by us. Only the vocals and drums have to be microphoned.

## Lights

Liquid Air delivers an energetic live-show. To be as audiovisually convincing as possible, there should be a light console. We encourage the system technician to have fun with it as well and will be sure to provide a set list with lighting cues if requested.

## Stage Plot with power-needs

**If one or more requirements of this rider cannot be met, we ask you to please contact us as soon as possible!**

## Input-List Stage Box 1

Input	Instrument	Mic
